PARIS, May 17.—While scattering President Wilson's address to Congress inside the German lines between Laon and St. Quentin on Monday the wings of William Dugan's airplane were riddled with Krupp anti-aircraft gun shrapnel from a battery 12,000 feet below. Dugan escaped unhurt, and with Edwin Parsons of Holyoke, Mass., Kenneth Marr of San Francisco distributed several thousand of the leaflets.

MARTIN ASSAILS U. S. PROSECUTOR IN PLOT TRIAL

Shouts Charge of Bad Faith and Counsel Threatens to Quit.

When the trial of Franz Bintel, David Lamar and five others charged with conspiring to stop shipment of munitions to the Allies was resumed to-day in the United States District Court Henry B. Martin, one of the defendants, who finished his direct examination yesterday, accused the prosecution of bad faith. Martin is Secretary of the Anti-Trust League and was Treasurer of Labor's National Peace Council.

"The District Attorney," shouted Martin, amid protests from his own attorney, L. B. Williams, "knew that I was indicted when absolutely guiltless. He knew I never was guilty of conspiring with any one."

"You are doing this," said Mr. Williams, "without my knowledge and consent and if you persist you will have to obtain new counsel."

Judge Cushman finally insisted on quiet and cross examination of the witness was resumed. Martin said he never kept books or made account of either collections or disbursements.

He was asked how much money he had received from Lamar, but the prosecution objected and counsel withdrew the question.

Herman Schulteis, another of the defendants, was the next witness called and he described how he had been attorney for the Anti-Trust League, Knights of Labor, Railway Telegraphers and other labor organizations.

ARGENTINA AGAIN PLACES AN EMBARGO ON WHEAT

Repeats Order of Last Month Held Up by British Threat to Cut Off Coal Supply.

BUENOS AIRES, May 17.—The Argentine Government to-day announced a prohibition on the exportation of wheat. It was the Government's second announcement of an embargo. The first, effective early in April, was held in abeyance through protest of Great Britain, backed by the United States. At that time the British Government threatened to cut off all shipments of coal to Argentina. Inasmuch as the republic is entirely dependent on imported coal, paralyzation of its industries was thus threatened.

RECRUITS' TEETH FIXED FREE

Volunteer Dentists Enable Many Rejected Men to Enlist.

To aid in bringing up New York's recruiting the Dental Preparedness League has informed the Board of Health that its members will attend to the teeth of recruits free. According to figures furnished Dr. Charles E. Robinson, Director of Public Health Education, eighty-five prospective soldiers and sailors in Manhattan and fifty in Brooklyn already have been treated and have been enabled to enlist. The league has a list of several hundred dentists who have volunteered to give free treatment. These dentists will treat every man rejected on account of his teeth who brings a note from the recruiting officer. The men applying in Manhattan are being treated at the Bellevue Dental Clinic. In Brooklyn the dentists are treating the men in their offices.
